

Club Website Content Suggestions

Creating a page dedicated to The Sideline Project on your club or organization website drawing attention to your Sideline Project Partnership is essential!

This will:

1. Highlight the efforts of your club to make youth soccer better, and
2. Be the primary way your club members continue to engage with The Sideline Project, watch the educational video, and sign the Sideline Pledge.

There are two primary ways you can set up the website page:

1. Link to The Sideline Project website from your site, or
2. The Sideline Project Pledge iframed directly onto the club website so people can watch, read and sign directly from your site. (*iframe code was sent in your welcome email. Can't find it?....Reach out to info@thesidelineproject.com and we will happily resend.*)

WEBSITE PAGE SUGGESTIONS:

The Sideline Project is a movement to improve youth soccer sidelines and we are proud to partner with The Sideline Project to make youth soccer better.

We want all of our club parents, coaches, referees, administrators and spectators to Take the Sideline Pledge: watch the short video about sideline behavior, read the pledge, and add your name to the virtual pledge wall.
